

# TISSUE GRINDERS

## QT-2700 FLEXIBLE DRIVE

Increase safety with flexible drive. The flexible homogenizer drive allows up and down motion of rotation pestle in a stationary tube that can be mounted in ice or controlled temperature bath.

- Accepts the adjustable chucks furnished with motor drives
- Eliminates hand holding of tubes and pestles
- Furnished with clamp for holding homogenizer tube and shaft re-strainer for top of support stand
- Fits all "Q" Glass's motor drives or any 5/16" diameter motor shaft
- 36" long
- Convenient for processing several samples: pestle may be rinsed or separate pestle used to avoid sample contamination.

## QT-2750 STAND

Horseshoe base with rubber section cup feet. 24" long, 3/4" OD. Containers up to 9" OD will fit inside this stand.

Code

-110

# TUBES

## QT-3000 TUBE, SAMPLING THIEF

A plain 5/8" OD tube with a tapered, constricted tip. Approximately 40" long. For sampling out of drums or other large containers.

Code

-110

*Note: "Q" Glass can fabricate thieves to your specifications. Please call with your requirements.*

## QT-3015 SOLIDIFICATION POINT TUBE

To determine solidification points of fats and waxes. 25mm OD x 76mm high, with graduation mark at 57mm from bottom. Sold in packages of 12 each.

Code

-110

## QT-3010 TUBE, SAMPLING THIEVES

A larger diameter tube with tapered, constricted ends. One end has glass finger grip rings. Overall length is approximately 36" long. For sampling out of drums or other large containers.

## QT-3020 TEST TUBE

Round bottom tube with a flask length stopper at top.

Capacity ML	OD x Length, MM	Stopper	
		Size	Code
5	13 x 100	9	-110
10	16 x 100	13	-111
25	19 x 150	16	-112

# TUBES

## QT-3030 TEST TUBE

Round bottom tube with a flask length stopper at top and graduated.

Capacity ML	Subdivisions ML	OD x Length, MM	Stopper Size	Code
5	0.1	13 x 100	9	-110
10	0.2	16 x 100	13	-111
25	0.5	19 x 150	16	-112

## QT-3035 TEST TUBE, POLYPROPYLENE OR POLYSTYRENE

Clear polystyrene tubes provide excellent clarity, tolerate aqueous solutions of mild bases and weak acids. Translucent polypropylene tubes are unaffected by most of the commonly used acids, alkalis, solvents and are autoclavable. Two types of caps are available, first, a polyethylene cap with a special plug and skirt is available for 12 x 75 and 13 x 100mm tubes. Second, a polypropylene snap cap fits only the 12 x 75mm tubes.

OD x Length, MM	Description	Case/Code
12 x 75	Polypropylene	1000/-110
12 x 75	Polystyrene	1000/-111
13 x 100	Polypropylene	1000/-112
13 x 100	Polystyrene	1000/-113
12 x 75	Polyethylene Cap	1000/-114
13 x 100	Polyethylene Cap	1000/-115
12 x 75	Polypropylene Cap	1000/-116

## QT-3040 TEST TUBE

Available with a round bottom or flat bottom, in any height or diameter, with or without a lip. Please call with all of your requirements.

## QT-3050 TUBE, THUNBERG

The hollow 19/22 stopper acts as a reservoir for materials to be added to the tube during testing. Stopper has a hole which can be sealed off by turning it.

Code

## QT-3060 TUBE, VACUUM HYDROLYSIS

Designed for use in vacuum applications, with a high vacuum teflon valve, where only teflon and glass come in contact with materials.

Capacity ML	Valve Size, MM	OD x Length, MM	Code
1	0-4	8 x 60	-110
5	0-4	10 x 100	-111
10	0-4	10 x 150	-112
20	0-8	19 x 100	-113
